THE EGGLESS CAKE

The prestige of the hen is being
curtailed in a new and interesting
way.
She lays a billion eggs or so for
the human race each year, and, un-
der world war conditions, the price
of eggs per dozen to consumers had
approached a dollar in some parts of
the United States, and has reached
the prohibitive price of two dollars
or more in the belligerent countries.
Therefore when the high cost of

living looms large in the public eye,
unusual importance is attached to
the announcement of the best known
baking powder company in the world
that it has evolved a ready and prac-
tical way for the housewife to save,
in the aggregate, many millions of
dollars in household expenses thru
the use of more Royal Baking Pow-
der and less eggs.

Months of experimenting have
elicited a large number of recipes
for the making of home baked prod-
ucts with fewer eggs, and these re-
cipes are being distributed gratis. It
is claimed that they prove conclus-
ively that the baking powder saves
eggs—in some cakes about half the
cost of the cake is saved. In re-
cipes calling for the use of eggs, the
number can be reduced and excel-
lent results—healthful, appetizing
cakes, muffins, corn bread, etc.—ob-
tained by using a small additional
quantity, about a teaspoon, of Royal
baking powder in place of each egg
omitted.

The acme, or top-notch achieve-
ment, in this connection is an egg-
less, milkless, butterless cake that is
pronounced by all who have tasted it
to be delicious and wholesome. Its
appetizing quality, it is claimed, will
be surprising to the housewife who
tries it according to the recipe given.

The idea of using more Royal bak-
ing powder and less eggs in baking
is not entirely new, but the elabo-
rate enlarging and perfecting of the
idea just accomplished renders it a
very present help, meeting the nec-
essities of the housewife of moder-
ate means in a time of soaring food
prices.

In the British Isles the news has
been received with enthusiasm. The
baking powder company, while not
being accused of being an out-and-
out philanthropist in the matter, is
pointed out as having provided the
means of effecting an enormous sav-
ing in household affairs in a way
that benefits everybody and harms
nobody—except it be the pride of
the autocratic hen. The company
only completed its experiments re-
cently, and already the announce-
ments are being spread broadcast in
the newspapers, which, it will be re-
membered, many years ago made the
name of Royal Baking Powder a
household word all over the world.

**Look and Feel
Clean, Sweet and
Fresh Every Day**

Drink a glass of real hot water
before breakfast to wash
out poisons.

Life is not merely to live, but to
live well, eat well, digest well, work
well, sleep well, look well. What a
glorious condition to attain, and yet
how very easy it is if one will only
adopt the morning inside bath.

Folks who are accustomed to feel
dull and heavy when they arise, split-
ting headache, stuffy from a cold, foul
tongue, nasty breath, acid stomach,
can, instead, feel as fresh as a daisy
by opening the sluices of the system
each morning and flushing out the
whole of the internal poisonous stag-
nant matter.

Everyone, whether ailing, sick or
well, should, each morning, before
breakfast, drink a glass of real hot
water with a teaspoonful of limestone
phosphate in it to wash from the
stomach, liver, kidneys and bowels the
previous day's indigestible waste,
sour bile and poisonous toxins; thus
cleansing, sweetening and purifying
the entire alimentary canal before
putting more food into the stomach.
The action of hot water and limestone
phosphate on an empty stomach is
wonderfully invigorating. It cleans
out all the sour fermentations, gases,
waste and acidity and gives one a
splendid appetite for breakfast. While
you are enjoying your breakfast the
water and phosphate is quietly ex-
tracting a large volume of water from
the blood and getting ready for a
thorough flushing of all the inside
organs.

The millions of people who are
bothered with constipation, bilious
spells, stomach trouble, rheumatism,
others who have sallow skins, blood
disorders and sickly complexions are
urged to get a quarter pound of lime-
stone phosphate from the drug store
which will cost very little, but is
sufficient to make anyone a pro-
nounced crank on the subject of
internal sanitation.

NEW NEBRASKA LAW FIXES WEIGHTS AND MEASURES

Every merchant, farmer, house-
wife, and, in fact, all persons who
have occasion to buy grains and
grass seeds, vegetables, fruits, etc.,
should be interested in knowing the
new standards for weights of foods.
This is important since so much
food is now sold by weight instead
of measure.

H. R. 101 fixes the bushel weight
of the following articles:

Grains and grass seeds, broom
corn seed, 56 pounds; rape seed, 50;
red top seed, 14; speltz, 48 (raised
from 40); popcorn, unshelled, 70.

Vegetables: Green beans, 56
pounds; onion sets, top 28, bottom,
32; green peas in pod, 50; rutabag-
as, 60; sweet corn, 50; miscellane-
ous root crops, 55.

Fruits: Cherries, 40 pounds;
grapes with stems, 40; pears, 45;
plums, 48; quinces, 48.

Nuts: Peanuts, 22 pounds; wal-
nuts and hickory nuts, hulled, 50.

Miscellaneous: Charcoal, 20; coke
40; coal, 80; salt, 80; shorts, 20.

Amends section 7524, revised stat-
utes.

PLYMOUTH ROCKS FOR MCCORMICK

F. D. McCormick, proprietor of
the Manhattan Cafe, is trying a new
tack this year in fighting old H. C.
L. A year ago Mac planted a big
garden and raised a whopping big
bunch of fine vegetables. This year,
with chickens (old hens, roosters
and spring) bringing not less than
\$1.20 per, he decided that the same
ground could make more money and
he could hit old H. C. L. a blow in
the solar plexus by planting eggs.
The result is that Mac now has 500
of the feathered tribe on his hands
in a fair way to become fine, fat
fries in a few weeks. The neigh-
bors and friends who told him he'd
never do it are now wondering why
they didn't take his tip and follow
suit.

There is more Catarrh in this sec-
